ANIMAL HEALTH & EXHIBITOR RULES & REGULATIONS

ANIMAL HEALTH RULES ARE SET FORTH BY THE PENNSYLVANIA DEPARTMENT OF AGRICULTURE AND MUST BE ADHERED TO:

PENNSYLVANIA POULTRY REQUIREMENTS:

The Pennsylvania Bureau of Animal Industry regulations require that Fair or Show secretaries submit an AAI-34 (Entry Report Form for Fair and Show Secretaries) listing all expected poultry entrants no less than ten days before the show.

Regulations also require that the Bureau of Animal Industry must be notified of planned bird shows (pigeon, canary, parakeet, etc.) at least 30 days prior to the show date. The Fair Secretary should submit an AAI-48 (Bird Show Notification Form) giving the date and location of the show.

Flock Owners must endorse official certification that all poultry and birds for exhibit originate from flocks free of evidence of contagious diseases.

Pennsylvania chickens must be from home flocks vaccinated for laryngotracheitis (LT) no more than 1 year, and no less than 30 days before opening date. **LT VENT BRUSH VACCINE MUST NEVER BE USED**

Use vaccine for intranasal (in) or intraocular (IO) administration only.

Since all birds returned from the show are potential sources of infection to other birds, they should be isolated immediately after their return, separate and apart from all other birds. This isolation should be maintained indefinitely, if possible, or at least until it has been established that the birds are not carriers of disease-producing agents as may be determined by exposure of a few susceptible birds to direct contact with them.

1. ALL Pennsylvania poultry, waterfowl, upland game birds, and pigeons entering an exhibition must bear a unique individual identification leg band (official state-issued leg bands are not required).
